

IN CONTROL
UNDER ANY
CIRCUMSTANCE

In control under any circumstance

The Rexton W is equipped with cutting-edge active safety systems, including the Electronic Stability Program, which integrates the electronic brake-force distribution, the antilock braking system, brake-assist system, traction control system, and active rollover protection. The ESP monitors the vehicle status at all times, and takes charge of engine output and brake force the moment the driver is in danger of losing control.

TECHNICAL DATA

ENGINE		RX200 e-XDi (W/CDPF)											
DRIVEN WHEELS		PART-TIME 4WD											
TRANSMISSION		5-SPEED AUTOMATIC											
EMISSION		EURO 5											
Overall length		mm	4,755										
Overall width		mm	1,900										
Overall height		mm	1,840(with roof rack)										
Tread	Front	mm	1,570										
	Rear	mm	1,570										
Overhang	Front	mm	885										
	Rear	mm	1,035										
DIMENSIONS	Wheelbase	mm	2,835										
	Approach angle	degree	28										
	Departure angle	degree	25.5										
	Ramp angle	degree	22.5										
Min. clearance	Front	mm	250										
	Rear	mm	216 (IRS : 260)										
Min. turning radius			m	5.7									
WEIGHT	Gross vehicle weight	Kg	2,710										
	Kerb weight	Kg	1,985 ~ 2,049										
	Gross trailer weight	Braked	Kg	2,600									
		Unbraked	Kg	750									
ENGINE	Fuel			Diesel									
	Capacity	cc			1,998								
	Bore X stroke	mm			86.2 X 85.6								
	Compression ratio	-			16.5 : 1								
Number of cylinders					4 in-line								
Max. power			kW/rpm			114/4,000							
			ps/rpm			155/4,000							
PERFORMANCE	Max. torque			Nm/rpm			360/1,500~2,800						
				kg-m/rpm			36.7/1,500~2,800						
	Low-end torque			Nm/rpm			190/1,000						
	Max. speed			Km/h			175						
FUEL CONSUMPTION							CO ₂ (combined)			g/km			206
							Combined			L/100km			7.8
							Urban			L/100km			9.9
							Extra Urban			L/100km			6.7

* IRS: Independent Rear Suspension
* The fuel economy can vary according to the road condition or driver's habit.

ALL NEW

REXTON

THE GAME CHANGER

NEW FACE OF MODERN REFINEMENT AND LUXURY

SUV ruggedness made over in a modern, sophisticated style

The new third generation Rexton W gets an all-new front end with projector headlamps and daytime LED lights, chrome grille, new bumpers with integrated fog lamps and LED indicators. The hood character line adds fullness to the distinctive, aggressive look up-front, while along the sides, the stainless steel beltline and side seal chrome moulding bring a well-balanced flow from the front fender to the rear quarter.

- 01** Projection head lamp with LED daytime running lights
- 02** Sophisticated & Aerodynamic Radiator Grille
- 03** Full bodied hood character line
- 04** Elegant rear combination lamps
- 05** Stainless steel beltline & side seal chrome moulding

NEW FORM NEW FUNCTION

A more pleasant driving experience all around

Stylish, bold and contemporary in design, made chic for the city and ready for the countryside. Leather seats in beige or black complemented by a choice of metalgrain or matte wood trim creates an ambience of quality and elegance. A myriad of features such as power adjustable seats with memory settings and a high resolution, touchscreen entertainment system combined with an integrated GPS navigation system lend a sense of luxury and convenience while you embark on your journey.

- 01** LED black face cluster
- 02** Driver's seat with memory function
- 03** Power seats in front
- 04** Touchscreen entertainment system with GPS navigation

UTILITY MULTIPLIED

Business class for 7

A versatile business class cabin space for everyone and everything. Head, shoulder and legroom are amongst the best in class, accommodates up to 7 full-size adults or can be re-configured effortlessly in multiple ways to suit almost every conceivable use, the second and third row of seats can be folded flat for maximum cargo capacity. The roof rack is suitable for carrying bicycles and other long and bulky cargo.

TORQUE OF THE TOWN

Performance-proven power plants

The Rexton W RX200 e-XDi derives power from the highly efficient, EURO V 2.0-litre, four-cylinder common-rail turbocharged diesel engine. It generates a healthy output of 155bhp and 360Nm of maximum torque from a low 1,500 rpm while maintaining fuel consumption of 7.8L/100km on a combined cycle.

5-speed automatic
The E-tronic automatic transmission, built with Mercedes-Benz technology, provides smooth and quiet operation. The advanced A.I. programme monitors the vehicle's operational status and can anticipate the driver's intentions, while optimal gear changing delivers the best driving performance at high speed and improves fuel efficiency.

Thumbs up manual mode
The Rexton W with automatic transmission features a sporty driving option. Switches on the gearshift knob and steering wheel allows the driver to shift gears up or down manually.

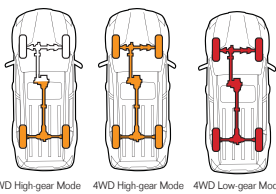

A STURDY RIDE A DYNAMIC DRIVE

The authentic SUV performance

The Rexton W features a real time selectable drivetrain that best suits your driving needs. Deactivating 4WD will provide better fuel economy under normal driving conditions, while activating 4WD maximizes safety when the driving gets rough and extra traction and torque are needed.

Part-time 4WD

Part-time 4-wheel drive is simple and offers great drivability. Normally, the vehicle is driven by the rear wheels only, lowering fuel consumption from lower rolling resistance. The driver can switch the transaxle to four-wheel drive while the vehicle is in motion whenever additional traction is required, the driver to shift gears up or down manually.

Incorporating the double wishbone with the impact-absorbing 8-link independent suspension
The Rexton W employs the same advanced suspension systems found in many luxury saloons to achieve the superior damping essential of both handling and ride comfort.

Double wishbone in front
The front wheels are suspended by lower and upper arms to maintain optimal wheel contact for better driving stability. Ride smoothness is further enhanced by dual action gas-filled shock absorbers, stabiliser bar and coil springs.
